CONSENT / HOLD HARMLESS AGREEMENT

As a parent or legal guardian of the child named on this form, I hereby give my full consent and approval for my child to participate as a team member in the Bridgman Baseball Association.

I understand that there are certain risks of injury inherent in the practice and play of this sport, as well as in traveling, and other related activities incidental to my child's participation. I am willing to assume these risks on behalf of my child. I hereby certify that my child is fully capable of participating in the designated sport and that my child is healthy, and has no physical or mental disabilities or infirmities that would restrict full participation in these activities, unless otherwise noted on this form.

In addition to giving my full consent for my child's participation, I do hereby waive, release, and hold harmless the Bridgman Baseball Association, its officers, coaches, umpires, sponsors, supervisors, and representatives, for any injury that may be suffered by my child in the normal course of participation in the designated sport, and the activities incidental thereto, whether the result of negligence, or any other cause.

I take full responsibility for the return of any and all equipment, fund raiser merchandise, and/or money that is issued to my child which is due to be returned to his/her coach, or team. I understand that any equipment or merchandise issued to my child which is not returned within a reasonable period of time, and any dues owed to the Bridgman Baseball Association, be it registration fees or fund raiser money, will be made whole, or my child may be required to forfeit playing time until restitution is made. I understand that I am responsible for working in the concession stand for the game(s) assigned to me by my child's coach unless I pay the opt-out fee noted on this form.

Bridgman Baseball Code of Conduct for all Participants, Coaches, Parents and Spectators

Before a participant is allowed to begin practice or competition he/she and a parent or guardian is required to read the code of conduct and sign an agreement on the registration form. All participants, coaches, parents, and spectators are expected to follow this Code of Conduct. The following actions may result in a verbal or written warning, suspension from participation, or expulsion from the activity or program:

1. Fighting, verbal abuse or threatening physical harm.
2. Arguing with coaches or game officials.
3. Harassing, criticizing, or making fun of others.
4. Throwing equipment or other items to express anger.
5. Cursing or inappropriate language.

Participant Signature: _____

For more information, please call Dustin Spitzer at 269-326-0213 or Robin Johnson at 269-876-9830 or visit our Facebook page – Bridgman Baseball Association. Please mail completed forms and registration fees to Bridgman Baseball Association, PO Box 203, Bridgman MI 49106, or drop them off on 02/04/17 from 10A-2P at Harding's, 02/11/17 from 10A-1P at Mini Bees at Bridgman High School, or on 02/12/17 from 10A-2P at Harding's.

PARENT & ATHLETE CONCUSSION INFORMATION SHEET

WHAT IS A CONCUSSION?

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow, or jolt to the head or body that causes the head and brain to move quickly back and forth. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious.

WHAT ARE THE SIGNS AND SYMPTOMS OF CONCUSSION?

Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury.

If an athlete reports one or more symptoms of concussion after a bump, blow, or jolt to the head or body, s/he should be kept out of play the day of the injury. The athlete should only return to play with permission from a health care professional experienced in evaluating for concussion.

DID YOU KNOW?

- Most concussions occur without loss of consciousness.
- Athletes who have, at any point in their lives, had a concussion have an increased risk for another concussion.
- Young children and teens are more likely to get a concussion and take longer to recover than adults.

SYMPTOMS REPORTED BY ATHLETE:

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to light
- Sensitivity to noise
- Feeling sluggish, hazy, foggy, or groggy
- Concentration or memory problems
- Confusion
- Just not "feeling right" or is "feeling down"

SIGNS OBSERVED BY COACHING STAFF:

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes
- Can't recall events prior to hit or fall
- Can't recall events after hit or fall

"IT'S BETTER TO MISS ONE GAME THAN THE WHOLE SEASON"

Michigan Department of Health & Human Services

RICK SNYDER, GOVERNOR | RICK LYON, DIRECTOR

CONCUSSION DANGER SIGNS

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body s/he exhibits any of the following danger signs:

- One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that gets worse
- Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Cannot recognize people or places
- Becomes increasingly confused, restless, or agitated
- Has unusual behavior
- Loses consciousness (even a brief loss of consciousness should be taken seriously)

WHAT SHOULD YOU DO IF YOU THINK YOUR ATHLETE HAS A CONCUSSION?

1. If you suspect that an athlete has a concussion, remove the athlete from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says s/he is symptom-free and it's OK to return to play.
2. Rest is key to helping an athlete recover from a concussion. Exercising or activities that involve a lot of concentration, such as studying, working on the computer, and playing video games, may cause concussion symptoms to reappear or get worse. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional.
3. Remember: Concussions affect people differently. While most athletes with a concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer.

WHY SHOULD AN ATHLETE REPORT THEIR SYMPTOMS?

If an athlete has a concussion, his/her brain needs time to heal. While an athlete's brain is still healing, s/he is much more likely to have another concussion. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in young athletes can result in brain swelling or permanent damage to their brain. They can even be fatal.
